

Best-in-class, Early-season Disease and Insect Protection

The moment cereal seed is planted, it's vulnerable to a wide range of belowground diseases and insects. To avoid the risk of reduced stand establishment and root mass, your crops need a seed treatment that helps protect them right from the start. It's time to elevate your crop protection with an upgrade to a brand you trust. CruiserMaxx® Vibrance® Elite seed treatment is a premix formulated to help preserve yield potential with activity on a broad spectrum of early-season insects and diseases.

Proven Results from Advanced Components

CruiserMaxx Vibrance Elite contains trusted products including:

Vayantis® seed treatment

which brings an additional MOA for high-pressure *Pythium* situations, including against mefenoxam- and ethaboxam-resistant isolates

Maxim® 4FS seed treatment

which offers protection from a broad spectrum of diseases, including *Fusarium*, seed decay, seedling blight and snow mold

Vibrance seed treatment

which delivers best-in-class *Rhizoctonia* activity and boosts RootingPower that leads to strong roots and improved plant stands

Cruiser® 5FS seed treatment

for activity on early-season insect pests, including aphids and Hessian fly, and offers the benefits of the Cruiser Vigor Effect, which helps enhance germination, increase vigor and deliver higher yield potential

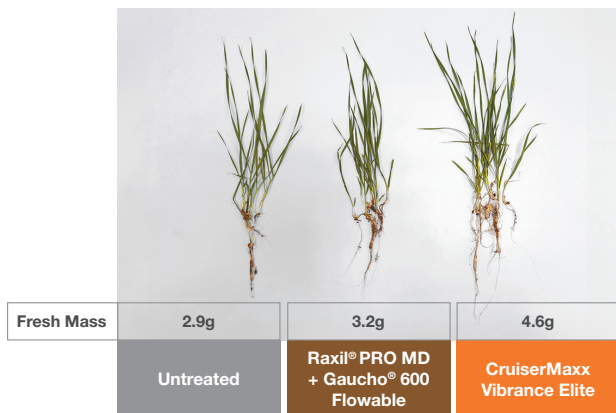

Pythium trials show an average of **18%** greater plant stand and **3.3 bu/A** yield increase in plants treated with **CruiserMaxx Vibrance Elite** compared to those treated with the combination of mefenoxam and ethaboxam.¹

Stands That Deliver to Your Bottom Line

Safeguarding crop emergence and promoting strong stand establishment with CruiserMaxx Vibrance Elite helps maximize plant populations, which sets the crop up to reach its full yield potential and helps drive profitability for you.

More Robust Plants & Root Systems

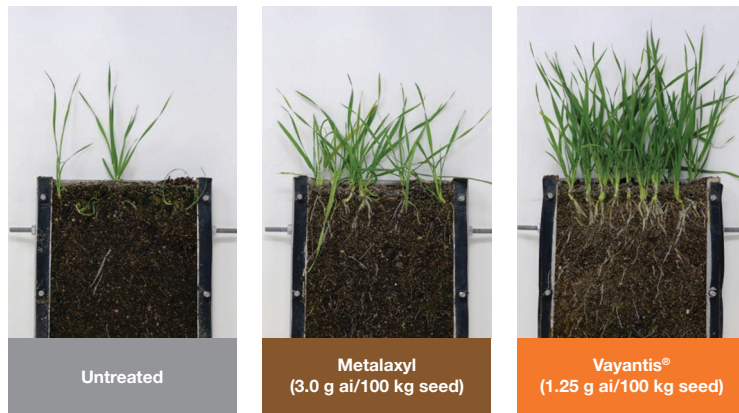

This experiment used a metalaxyl-sensitive isolate. Plant emergence and overall plant health and vigor are noticeable in the plants grown from CruiserMaxx Vibrance Elite-treated seed.

Superior Performance with the Addition of Vayantis

Vayantis® seed treatment is a solution for high-pressure *Pythium* situations, including mefenoxam and ethaboxam-resistant isolates. This is the result of a *Pythium*-inoculated growth chamber study.
