

FROM START TO FINISH
MIRAVIS TOP
 LEADS THE FIELD

It can be tempting to skimp on your soybean fungicide, but that choice can put your yield behind the pack. When the growing season is on the line, opt for Miravis[®] Top fungicide.

MEET THE TOP TEAM IN THE FIELD

Driven by next-gen ADEPIDYN[®] technology, Miravis Top consistently delivers high-octane performance that dominates the field. Formulated with more horsepower than its closest competitors, it helps you get more yield out of every gallon - thanks to tough disease control and proven plant-health benefits.

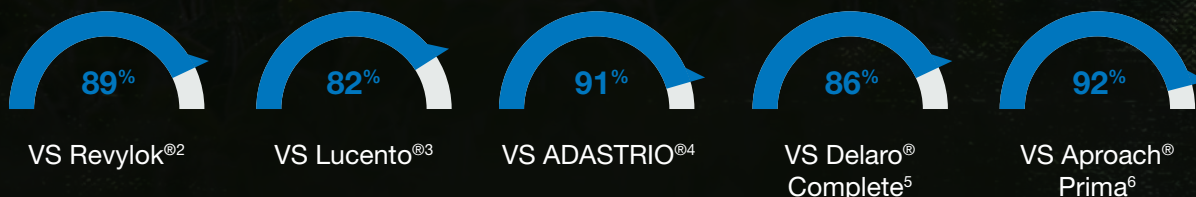

Diseases present: Heavy target spot and brown spot pressure. Application timing: R4. MSAGC Farm Crawfordsville, AR 2023.

THE RACE ISN'T EVEN CLOSE

There are plenty of familiar faces on the starting line, but only one brand takes the win nearly every time. Miravis Top performs better under pressure and outlasts competitors, no matter the track conditions.

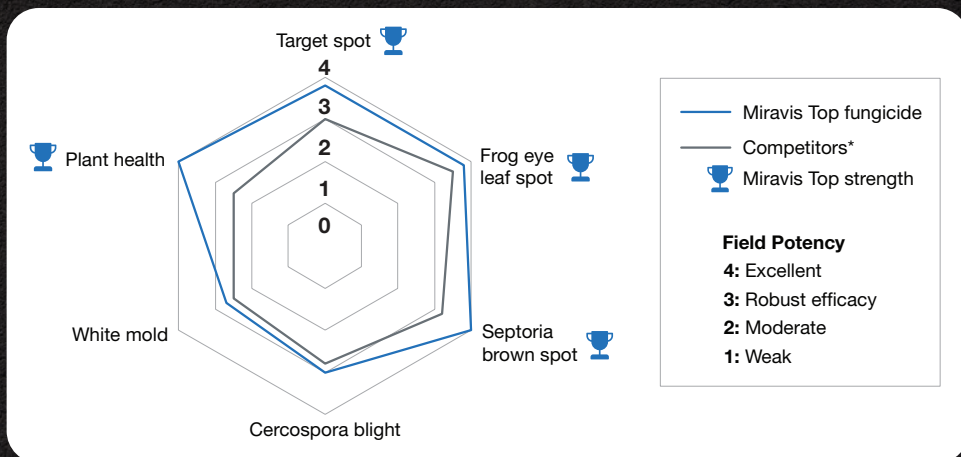

MIRAVIS TOP AVERAGE WIN RATE GAUGE

TOP OF THE LEADERBOARD

Miravis Top helps drive potential yields higher and consistently delivers greater value. How? With more powerful disease control and proven plant-health benefits to help you get ahead of the pack — and stay there.

*Competitor assessment = average of observed field trial performance of: Delaro® Complete, Aproach® Prima, Veltima®, Revylok®, Quilt Xcel®, Quadris Top® SBX, Headline AMP®, Lucento®, Adastrio® and TopGuard®. The proven plant-health benefits offered by ADEPIDYN technology keep plants greener, enabling:

- More light energy capture and conversion to yield production
- Greater water- and nutrient-use efficiency to enhance pod-fill
- Increased harvest efficiency, improved crop health and reduced pod shattering for greater ROI potential

DON'T JUST TAKE OUR WORD FOR IT

I have been using Miravis Top for two years, and it just seems to get more bang for your buck than previous fungicides.
