Strengthen your crop

syngenta® Biologicals

Abiotic Stress Mitigation

Boosten™

Abiotic Stress Mitigation

BOOSTEN™ fortifies your crops against yield-robbing environmental stressors. By enhancing plant resilience and vitality, BOOSTEN helps to ensure your crops not only survive, but thrive under challenging conditions.

Key Benefits:

Yield Preservation:
Safeguards your harvest by maintaining crucial energy-producing processes.

Stress Shield:
Protects against abiotic stresses including drought, heat and cold, preserving crop health and yield potential.

Antioxidant Powerhouse:
Neutralizes harmful oxygen molecules that form during stress, maintaining plant vigor.

Growth Continuity:
Ensures plant development and photosynthesis, even under adverse conditions.

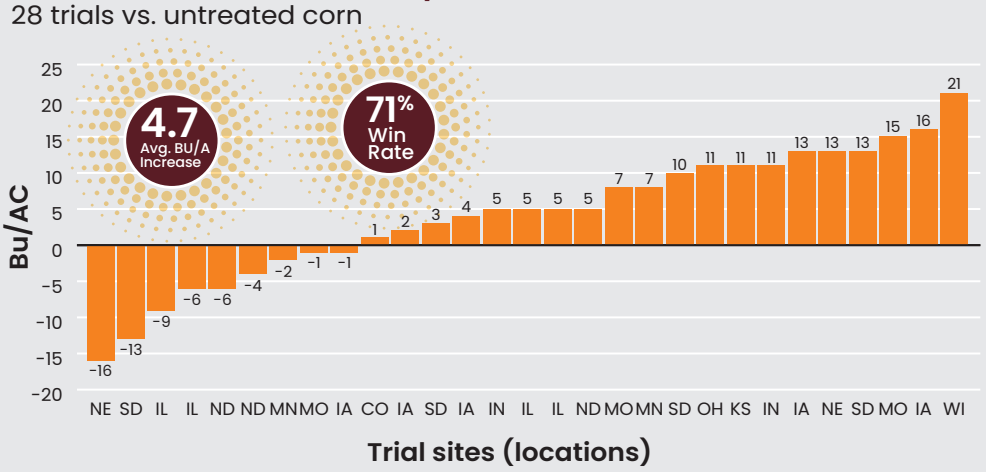

Proven Science:
Contains a complex of biologically active plant extracts and physiological activities thanks to GEAPower™ technology.

Compatibility:
Tank mix compatible.

2023–2024 Corn Yield Response

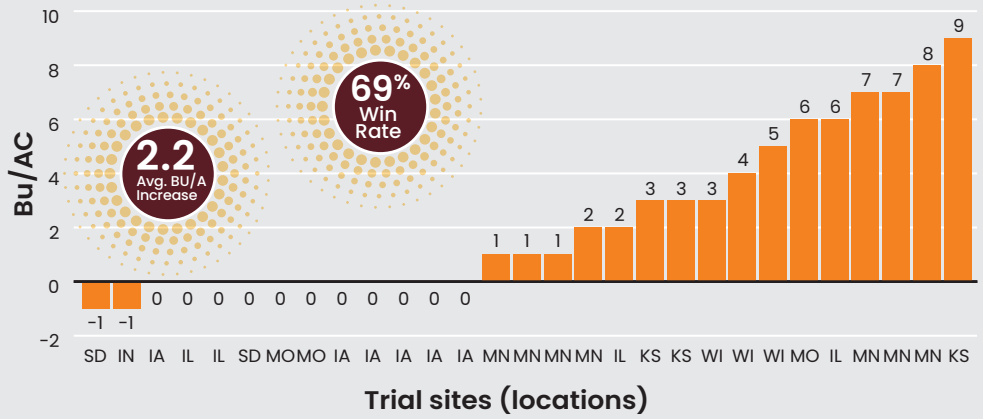

28 trials vs. untreated corn

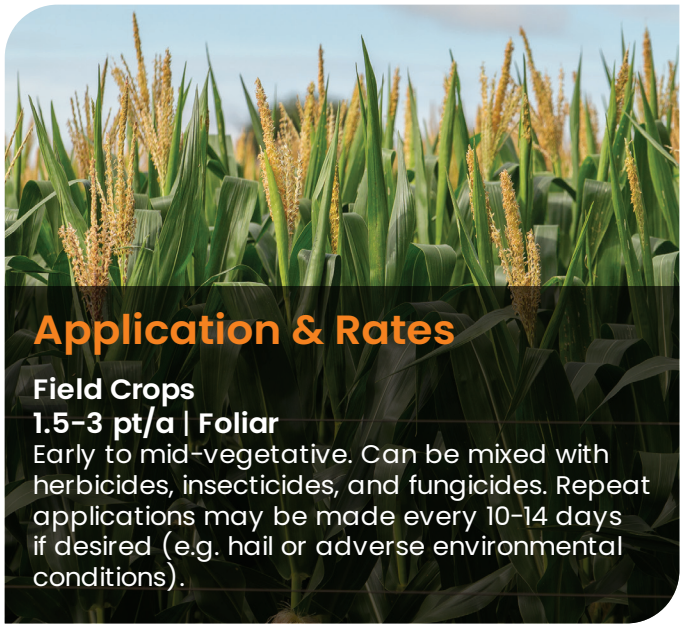

2024 Soybean Yield Response

29 trials vs. untreated soybean

Application & Rates

Field Crops
1.5-3 pt/a | Foliar
Early to mid-vegetative. Can be mixed with herbicides, insecticides, and fungicides. Repeat applications may be made every 10-14 days if desired (e.g. hail or adverse environmental conditions).
