DUAL MAGNUM HERBICIDE: A RELIABLE POST-EMERGENCE TANK-MIX PARTNER

Dual Magnum is a reliable tank-mix partner that helps provide overlapping residual control when applied post-emergence with herbicides like Enlist One®, Liberty® or XtendiMax® with VaporGrip® Technology. Adding Dual Magnum to your tank mix also provides another site of action (Group 15), which is a best practice for weed resistance management.

Benefits of Dual Magnum:

- Proven formulation with a track record of success and crop safety across corn and soybeans
- Unbeatable application flexibility across all trait platforms for both pre and post-emergence
- Enhanced residual control of grass and troublesome small-seeded broadleaf weeds like Palmer amaranth and waterhemp

Boundary® 6.5 EC herbicide 1.6 pt/A PRE followed by Roundup PowerMAX® 24 fl oz/A + Enlist One® 2 pt/A + AMS POST

Boundary® 6.5 EC 1.6 pt/A PRE followed by Dual Magnum® herbicide 1.2 pt/A + Enlist One 2 pt/A + Roundup PowerMAX® 24 fl oz/A + AMS POST
