

**TOUGH
ON PESTS**

Easy on you.

Stress less about insect control in cucurbit crops with Incipio™ insecticide, powered by PLINAZOLIN® technology. Leveraging an innovative Group 30 mode of action, Incipio delivers a heavy-duty takedown of challenging foliar insect pests in cucurbits, such as melonworm, pickleworm and squash bug. With a formulation that delivers rugged durability and impressive residual strength, Incipio takes the guesswork out of insect control so you can rest easy.

Incipio Product Features

Delivers excellent control of challenging insect pests in cucurbit crops, including melonworm, pickleworm and squash bug

Is the first foliar insecticide in IRAC Group 30 with no known resistance or cross-resistance with other chemistries

Sticks to the leaf surface, demonstrating excellent rainfastness and UV stability

Offers management flexibility through its broad-spectrum, long-lasting residual control

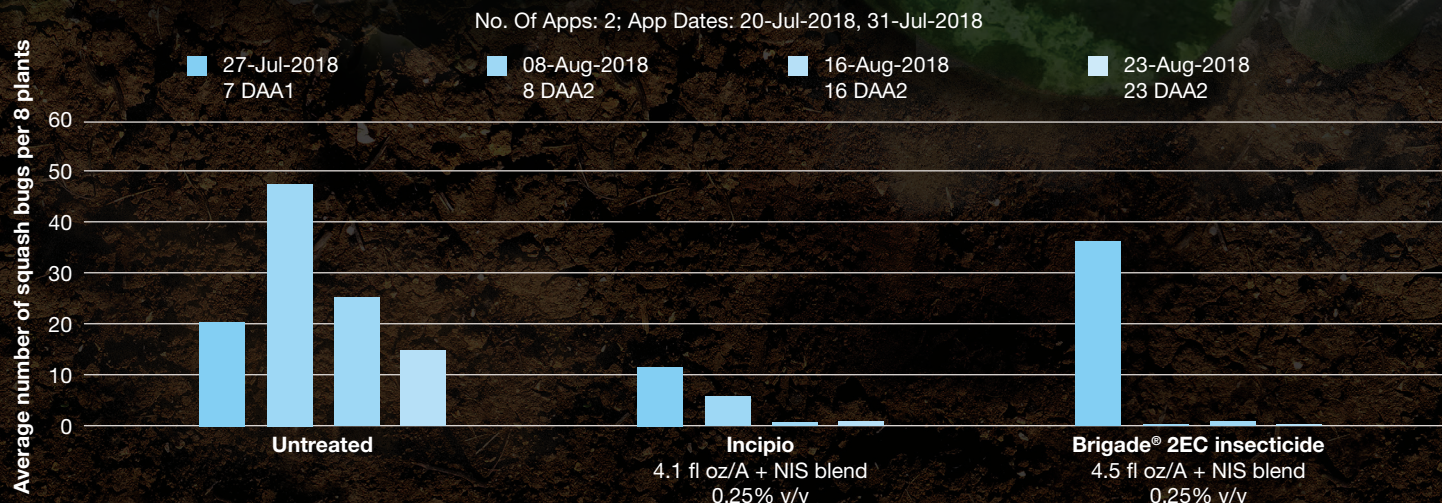

Key Insect Pests Controlled:

- Melonworm
- Pickleworm
- Squash bug

Squash Bug Control in Pumpkins

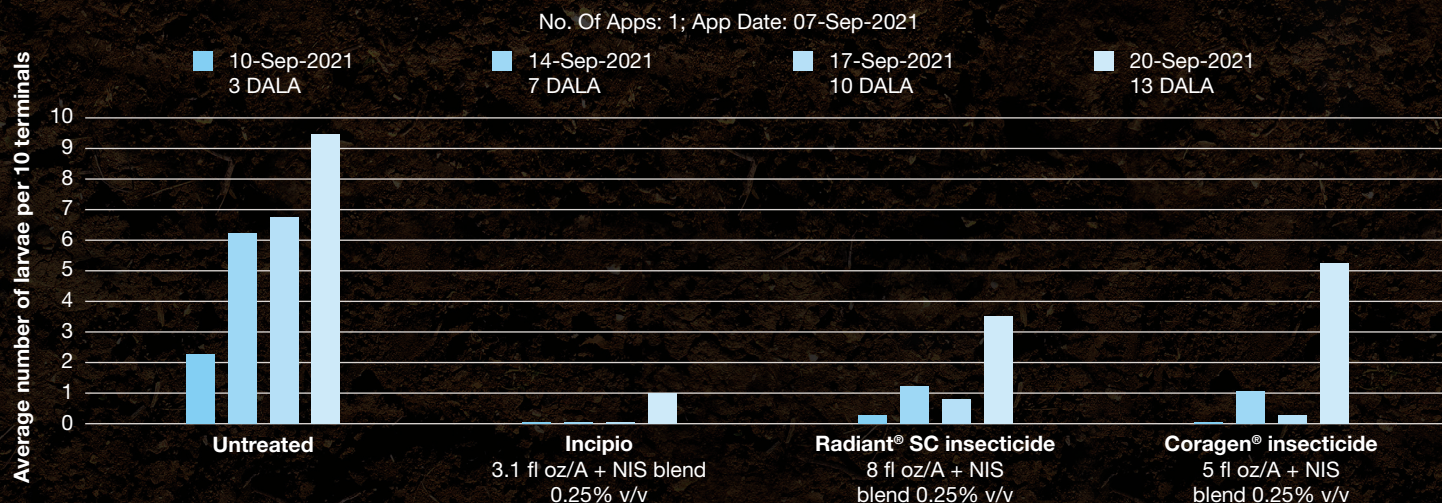

In a trial testing against squash bugs on pumpkins, pumpkins treated with Incipio had fewer bugs per 8 plants than untreated pumpkins.
