

# MIRAVIS FUNGICIDE FOR CHERRIES

Miravis® fungicide delivers excellent control of key diseases in cherry trees with more power, spectrum and stamina. Containing Adepidyn® fungicide, a broad-spectrum carboxamide chemistry with an SDHI mode of action, Miravis sets a new standard for performance and length of residual control to help cherry trees achieve maximum yield potential.

## MIRAVIS ADVANTAGES

- Delivers exceptional durability for extended residual control
- Provides high potency for powerful preventive control
- Accumulates heavily into the wax layers and translocates through the leaves
- Remains stable on the leaf surface for even distribution and protection

Controls key diseases

- ▶ Gray mold
- ▶ Powdery mildew
